

CYNAP PURE

HIGH-PERFORMANCE WIRELESS PRESENTATION

EASY SHARING OF DIGITAL CONTENT

Wireless presentation system offering high-quality content sharing for modern classrooms and meeting spaces, combined with support for platform-agnostic hybrid web conferencing.

It provides a simple, yet effective collaboration solution for any working and learning environment.

KEY FEATURES

- 
BYOD - 4K - Wireless Screen Sharing
 Support for AirPlay, Miracast, and Chromecast for app-free, dongle-free screen mirroring from any device.
- 
BYOM - Bring Your Own Meeting Web Conferencing
 Host professional web meetings wirelessly from a laptop - using camera, speakers and microphones already installed in the room.
- 
Live Viewer Mode
 Browser-based function, with PIN protection, enables all on-screen content to be streamed locally to personal laptops, smartphones or tablets for easy viewing.
- 
Enterprise Level Security
 Non-modifiable Linux system with wireless data encryption, user access management, and a range of customizable security features.
- 
Remote Management & Administration
 vSolution Link Pro - free-of-charge cloud or on premise software for easy remote setup and maintenance.

ADDITIONAL FUNCTIONS

Flexible Network Integration

Room Management APIs

Whiteboard & Annotation

Digital Signage Player

Up to 5 Years Warranty

Audio USB input (Video only BYOM)

Peripheral device control

Free Firmware Updates
